

# Remembering the Moments With You

Don Gnecco

Looking at photographs, now I can see  
So many images, you're there with me.  
In ev'ry smile your light shines through,  
Remembering The Moments With You.

Pictures of milestones, the light from your eyes  
Shines like a beacon on life's lows and highs.  
Day after day, your love shines through.  
Remembering The Moments With You.

*Chorus:*

Year after year, now I can see.  
We're making memories, our tapestry.  
(With) Each passing day, in all that I do,  
I'm Remembering The Moments With You.

*Bridge:*

(And) You see with your heart. I picture it, too.  
Love's building our memories.  
Remembering The Moments With You.

*Chorus:*

Year after year, now I can see.  
We're making memories, our tapestry.  
(With) Each passing day, in all that I do,  
I'm Remembering The Moments With You.  
I'm Remembering The Moments With You.
