

A Light in the Window

Don Gnecco

When I'm lost and lonely and can't find my way,
When I'm feeling helpless and ev'rythings gray,
A glimmer of hope in the distance I see
A light in the window for me.

*Your light is a beacon of hope.
It touches a place in my heart.
It guides me and shows me just where I must be.
A light in the window for me.*

When darkness surrounds me and ev'rythings bleak,
When troubles surround me, when I'm feeling weak,
A glimmer of hope in the distance I see
A light in the window for me.

*Your light is a beacon of hope.
It touches a place in my heart.
It guides me and shows me just where I must be.
A light in the window for me.*

Modulation

*Your light is a beacon of hope.
It touches a place in my heart.
It guides me and shows me just where I must be.
A light in the window for me.
Your light's in the window for me.*
