

One Light

Don Gnecco

One Light shines in ev'ry person.
One Light shines in you and me.
One Light shines from inside everyone I see.
It's the light that shines inside of me.

One Light binds us all together.
One Light shines from sea to sea.
One Light shines for all those longing to be free.
It's the light that shines for unity.

Joining hearts and hands,
The light still shines in all around the world.
Shining bright for all to see,
It's shining bright in me, in me.

Modulation

One Light brings us all together.
One Light, inside you and me.
One Light shines in ev'ry person that I see.
It's the light that shines inside of me.

Years pass and friends will come and go,
But in my heart love burns bright.
One Light keeps shining deep inside.
And in this heart of mine, my love will shine.
It's shining from One Light.
Shining from One Light.
