

One Time in My Life

Don Gnecco

One Time in My Life someone could see that I was hurting,
One Time in My Life somebody else feels my pain.
Then, somehow inside I could see who I am;
One Time in My Life I am knowing me.

*Just for me, you are there.
Loving me, letting me know that you care.*

One talk with a friend opens my heart, making things clear, now.
One simple smile says more than words can convey.
One moment of love opens the door to my soul;
One Time in My Life, I could feel who I am.

Modulation

One walk in the sun picks up the day, making me stronger,
One pat on the back helps me keep moving on.
One moment with you brings out the best part of me;
One Time in My Life, I can start loving me.

*Just for me, you are there.
Loving me, letting me know that you care.*

One Time in My Life, when I have no cares and worries,
One Time in My Life, when I can be who I am.
My dream's coming true, and my star's rising high;
I've waited for this time in my life.
