

We'll See Each Other Through

Don Gnecco

I look at all the beauty that's around me.
And then I start to wonder how and why.
I realize it's all a part of me, the
Wonder of the earth and sea and sky.

I know there is a Light that glows inside me,
The Light that shines inside of me and you.
I close my eyes and then I go inside.
The Light is there in all I see and do.

*So, from the Light that shines inside of me
I'm touched by the Light inside of you.
While traveling on life's path we're walking side by side.
With loving hearts we'll see each other through. (Each other through)*

(Modulation)

Oh, some believe that Heaven's in the sky.
But I believe it's 'round us every day.
So, when I start to doubt, I just look deep inside.
I close my eyes, and I hear Spirit say (Spirit say):

Look deep inside and see the wondrous Light.

*So, from that Light that shines inside of me
I'm touched by the Light inside of you.
While traveling on life's path we're walking side by side.
With loving hearts we'll see each other through. (Each other through)*

*So, from that Light that shines inside of me
I'm touched by the Light inside of you.
While traveling on life's path we're walking side by side.
With loving hearts we'll see each other through.)*
